

Item	Price of Item	Amount	Total
Hamburger rolls	R0.83	500	R416
Hamburger patties	R1.80	500	R900
Tomato sauce	R11.99	5	R59.95
Chutney	R15.49	5	R77.45
Onions	R8.99	5kg	R44.95
Lettuce	R6.49	20	R129.8
Paper bags	R0.40	500	R200
Sunflower oil	R15.69	3 bottles	R47.07
Margarine	R14.49	3 × 500g	R43.47
Total Cost			1918.60

2.a

- Hiring of equipment = R150
- Renting of plot = R75
- Assistant = R270
- Second assistant = R360

2.b

Total cost = R2773.69

3.

$$\frac{\text{Cost Price}}{500 \text{ burgers}} = \frac{2773.69}{500} = \text{R5.55 per burger}$$

4.

$$\text{Cost price} \times \frac{75}{100}$$

$$= \text{R5.55} \times \frac{75}{100}$$

$$= R4.16$$

$$= R4.16 + R5.55 = R9.17 \text{ per burger}$$

5.

$$\text{Cost price} \times 500$$

$$= R9.71 \times 500$$

$$= R4855$$

6.

$$\text{Selling price} - \text{Cost price}$$

$$R9.90 - R5.55 = R4.35$$

$$\text{Profit \%} = \frac{\text{Profit}}{\text{Cost price}} \times \frac{100}{1}$$

$$= \frac{4.35}{5.55} \times \frac{100}{1} =$$

$$= 78.38\%$$

7.

- Advertising, people won't buy if they don't know.
- Electricity for cooking the hamburger.

8.

Yes, because we will be offering a good product for the people as well as making a reasonable profit.

9.

- Sell chips and cool drinks separately.
- Take orders and ask who does not want margarine.

- Increase price of the hamburgers.
